

# Board Bulletin

In the normal course of its business, the Board of Dental Examiners encounters issues that, although addressed in the Dental Practice Act, are frequently misunderstood by its licensees. There are also questions that arise from time to time that the Board answers by setting policy for Board staff to provide consistent responses to its licensees.

The Maine Board of Dental Examiners hopes this Board Bulletin will be helpful to its licensees and encourages questions that may arise in the course of your practice of dentistry, denturism, and hygiene.

Periodically we will post additional bulletins on our Board Website which may be found at [www.mainedental.org/](http://www.mainedental.org/). Please check back.
